cloudASPIRE

WHEN YOU NEED HELP STARTING YOUR CLOUD JOURNEY

Begin your AWS cloud journey with confidence with Kinetic IT's cloudASPIRE. We will guide you in establishing strong and secure foundations that set you up for enduring success in an AWS cloud environment. From understanding your cloud strategy, and business objectives, to assessing your cloud readiness and migrating your first workloads into AWS - Kinetic IT is your safe hands to help you navigate your cloud transformation.

DEFINE YOUR CLOUD OBJECTIVES

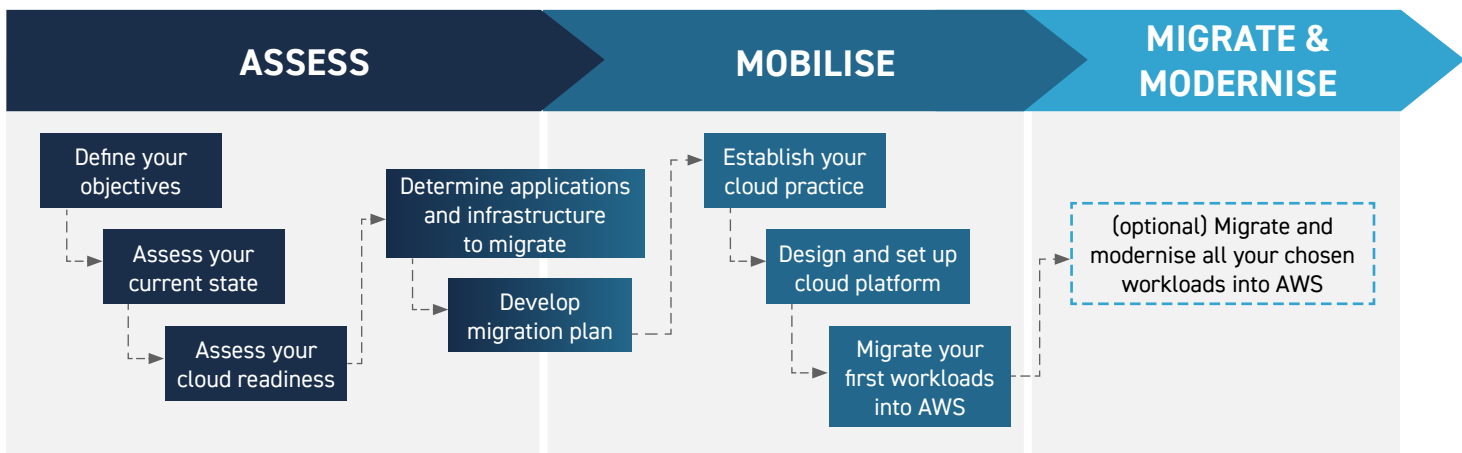

ASSESS YOUR CLOUD READINESS

MIGRATE YOUR FIRST WORKLOADS

ESTABLISH YOUR CLOUD PRACTICE

FEATURES

▶ MAP FUNDING

Your circumstances may make you eligible for financial support through the AWS Migration Acceleration Program. We'll assess your needs against the MAP application criteria at every step to determine what financial benefits are available to you.

▶ MIGRATION READINESS ASSESSMENT

We leverage AWS' Migration Readiness Assessment to determine your organisation's cloud adoption readiness, as well as the readiness of each application and workload. This ensures suitability for cloud migration and helps avoid post-migration issues.

▶ ESTABLISH YOUR CLOUD PRACTICE

We will guide you through establishing your organisation's cloud practice based on AWS and Kinetic IT best practices. This includes setting up the AWS cloud platform, as well as supporting security, operational and modernisation processes and capabilities.

▶ TARGETED ENGINEERING ENGAGEMENTS

Kinetic IT cloud professionals are on hand to provide additional support to augment your in-house cloud capabilities.

cloudACCELERATE

WHEN YOUR CLOUD JOURNEY ISN'T GOING TO PLAN

Overcome cloud adoption challenges with Kinetic IT's cloudACCELERATE. We'll provide course-correcting advice to navigate issues and overcome roadblocks of your in-flight cloud transformation. From understanding your pain points and uncovering the root cause of issues, to providing you with an actionable remediation plan, Kinetic IT is here to help get your cloud journey back on track.

IDENTIFY YOUR PROBLEMS

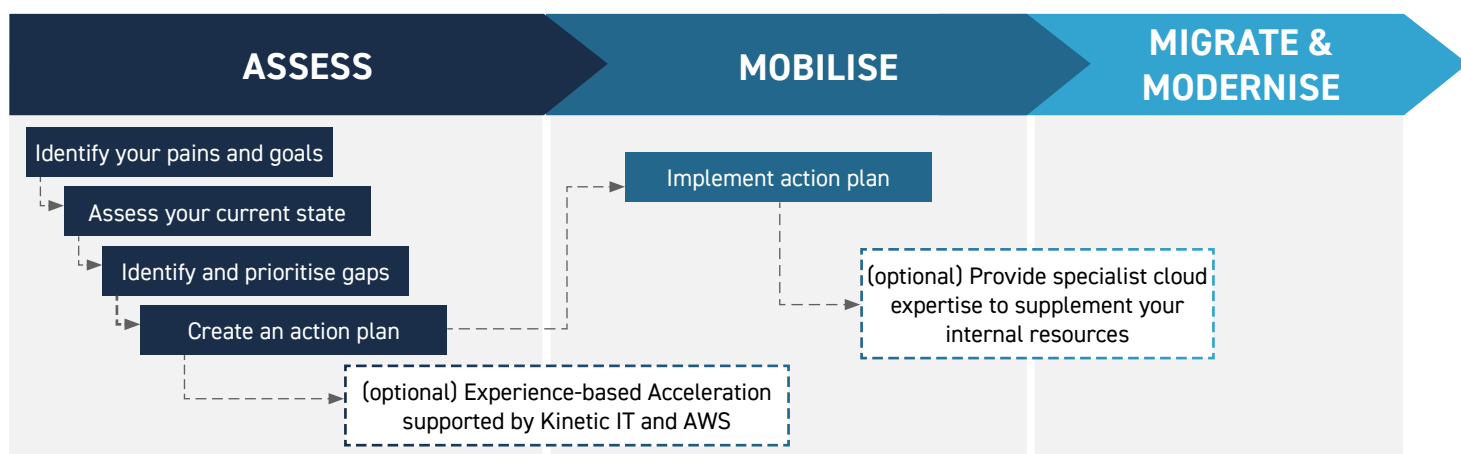

DESIGN A REMEDIATION ROADMAP

MATURE YOUR CLOUD CAPABILITIES

COMPLETE YOUR CLOUD MIGRATION

FEATURES

▶ MAP FUNDING

Your circumstances may make you eligible for financial support through the AWS Migration Acceleration Program. We'll assess your needs against the MAP application criteria at every step to determine what financial benefits are available to you.

▶ CURRENT STATE ASSESSMENT

We'll perform a detailed assessment of your current state to determine weaknesses and gaps that exist and uncover the root cause of issues you're experiencing.

▶ ACTIONABLE REMEDIATION PLAN

After thorough assessment of your pain points, cloud goals and current state, we'll provide you with a detailed plan to remediate issues in your cloud environment and cloud practice.

▶ EXPERIENCE-BASED ACCELERATION

Using the AWS formalised EBA approach, we can workshop with your key stakeholders to explore the root cause of issues and prototype possible solutions.

▶ TARGETED ENGINEERING ENGAGEMENTS

Kinetic IT cloud professionals are on hand to provide additional support to augment your in-house cloud capabilities.

cloudEXCELLENCE

WHEN CLOUD ISN'T DELIVERING YOUR EXPECTED OUTCOMES

Elevate your cloud journey to new heights with Kinetic IT's cloudEXCELLENCE. We'll help optimise and modernise your environment to realise the full potential of your cloud investment. From identifying areas that are falling short of expectations to building a roadmap to achieve desired outcomes, Kinetic IT will guide you every step of the way towards cloud excellence.
